Overseer of the Poor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Stoddard:

I herewith submit my second annual report as superintendent of schools. In it, I shall make a brief survey of some of the accomplishments, needs and objectives of the past year.

Throughout the extent of our republic, from the Atlantic to the Pacific, from the Great Lakes to the Gulf of Mexico, school officers and interested citizens have asked themselves what vehicle or connecting link has brought us as a nation from the "Yesterdays", the time when we rode in wagons, plowed with oxen, harvested with the cradle, threshed with the flail, read by candle light to the luxuries and modernized activities of the "To-days," when we ride in automobiles and airplanes, upheave the fields with tractors, harvest and thresh with the same operation, read and acquire knowledge by electric light and radio.

Out of the dark shadows of the past comes the answer, yet wearing the scars of struggle and the stripes of toil, but bearing in triumph the wisdom of all ages. We call her education, the torch that enlightens the world, fires the imagination of man and gives wings to the visions of youth, saturates the dreams of the aged and renders might to hand and brain. We, having confidence in this parent of progress, creator of culture and moulder of destiny, look forward with assurance to the "To-morrows," of our Democracy believing that education will provide for us the foundations of our future progress, that she will give the youth of our land the backbone of morals. Indeed, we trust our system of free education will become the conservator of the American home, the essential of citizenship and the inspiration for living.

The school is our workshop. Here we must stir the ambi-

tions, stimulate ideals and forge the keys that open the door of opportunity to our children.

OBJECTIVES

Of the seven objectives of education promulgated by the National Teachers' Association and broadcasted over the United States, we have placed emphasis particularly on the first, second, fourth and seventh viz: (1) "Health," (2) "Grasp of Fundamentals," (3) "Good Citizenship" and (4) "Ethical Character." Reading, spelling, arithmetic, English, geography, history and writing comprise the backbone of our course of study. The efficiency with which these fundamental subjects are taught determine the strength or weakness of a school system.

The following standard tests were given to all pupils above the second grade: Thorndike-McCall Reading, Ayres Spelling, Charter's Language, Gregory's American History, Gregory-Spencer Geography, and Stanford's Achievement Test.

For the most part, the tests were satisfactory and some exceeded the standards established for the various grades.

At the close of the school year of 1924, Harvey Cutler and Doris Noyce having completed their eighth grade were given certificates of promotion.

Mr. William C. Lang taught the year 1923-1924 with general success. Mr. Lang took an active interest in the moral religions and intellectual attainments of his pupils. At the beginning of the present school year in September, the school having so few scholars, it seemed advisable to employ a woman teacher. The school was placed under cadet teachers from the Keene Normal. Although this arrangement necessitates a change of teachers every nine weeks, yet by having a critic teacher from the Normal visit them twice every month, the work is continued without interruptions caused by change of teachers. The system is working out to the mutual benefit of district and Normal School.

From the statistics given in this report, we note that in per cent of attendance Stoddard has fallen below the standard maintained by the District and State. This is an unfavorable feature of the year's work.

Punctuality and regular attendance are habits essential to the foundations of a successful life and have a direct bearing upon school progress and promotions. However, a much better rate of per cent has been maintained during the last five months of the present year, and if continued will place the per cent of attendance of Stoddard for the year 1924-1925 ahead of the present rate of District or State. Certainly to accomplish this result is well worth your best efforts.

In conclusion, I wish to thank the School Board, teachers and citizens for their co-operation and support.

Respectfully submitted,

FREDERICK T. JOHNSON,

Superintendent of Schools.
